Your Product Merits Our Tests And Certifications

You can be proud of your product. Still, the requirements for safety and performance are strict. For your product to be successful and for the performance claims to be verified, the product needs to be compliant with regard to safety, quality and suitability. We understand this. And we take care of it.

The experts from TÜV Rheinland UK Ltd. use their extensive technical knowledge to perform tests and certifications. As the leading provider of testing and certification services in the world, we have been assisting our clients with their products for over 150 years. We stand for safety, quality and efficiency at the intersection of man, technology and environment.

We are always impartial and independent and take regulatory requirements, performance characteristics and consumer needs into account. All this greatly benefits you and your product because you reduce development costs and returns, acquire new target groups, improve customer retention, increase sales and get a faster access to international markets.

Our worldwide network of experts works together with international certification bodies and performs tests according to the applicable regulations. Product safety and product quality thus are validated. Comprehensive service, complete industry solutions with individual teams and regular contact persons support you with the development of your product from prototype to market launch.

We will help you analyze demands and goals. With tests at an early stage, you will be able to have a decisive influence on success factors.

Our test mark helps you to market your products convincingly and credibly. Wherever in the world – TÜV Rheinland is your one-stop solution for safety and quality.

THE TÜV RHEINLAND TEST MARK AND CERTIPEDIA

Consumers want the guaranteed trustworthiness of an independent third party. The combination of the TÜV Rheinland test mark and the online certificate database Certipedia offers your customers an easy, fast and transparent way to review product characteristics. Certipedia is a unique platform. It shows your products and services as well as their competitive advantages at a glance. Descriptive test mark keywords convey clear messages to your customers. Thanks to the individual test mark ID and QR code, your customers can immediately see the product test specifications online. In addition, you can incorporate your test mark very effectively into your product communication strategies.

TÜV Rheinland: Your Trusted Testing, Inspection And Certification Partner

Compliance with safety standards, regulations and codes of practice is a major concern in any market.

Toys that thrill children and reassure parents - with TÜV Rheinland UK, you can easily bring safe and child-friendly products to the market. We assist you in meeting current market requirements and swiftly responding to new opportunities, thereby avoiding delivery delays and regulatory hurdles.

With the challenges in the UK & EU toy market, there are more investigations than ever before. We, TÜV Rheinland UK are aware of the steady growth and high demand in the toy market and we are now expanding our toy testing service in UK region. This will help to support our clients and protect their brands to gain confidence and knowledge, from local UK toy testing to global toy testing service.

TÜV Rheinland UK Ltd. offers the following services:

- EU/UK toy testing, e.g., EN71-1
- Supporting in understanding toy testing
- Safety assessment of toys
- Training, seminars, and workshops on topics such as:
 - Product classification in the EU/UK (How to determine whether a product is a toy or a non-toy?)
 - Introduction to EU toy testing
 - Mandatory labelling for toys in the EU/UK
 - Review of product line and age rating assessment

CERTIFICATION AND TEST MARK

Upon successful testing and certification, the manufacturer receives a certificate and the right to use the test mark for a specified limited time. We assist you with selecting your testing requirements. Our tests can be individually expanded to include other test criteria.
