

Environmental management according to ISO 14001 at Böllhoff

Management systems – Environmental management ISO 14001

As an international service provider with its own production and development, Böllhoff GmbH & Co. KG is one of the leading suppliers of fastening elements, assembly technology and processing systems. Since 1996, the company has been certified by TÜV Rheinland and has acquired the certifications ISO 14001, ISO 45001, ISO 50001, ISO 9001, EN 9100, ISO/TS 22163 (IRIS) and IATF 16949.

Regulations, standards	ISO 14001, ISO 45001, ISO 50001, ISO 9001, EN 9100, ISO/TS 22163 (IRIS) und IATF 16949

INITIAL SITUATION AND REQUIREMENTS

Böllhoff's greatest requirement was to standardize the implemented quality and environmental standards at all 20 international locations of the Böllhoff Group. Ten auditors from TÜV Rheinland set the stage together with the management and quality management representatives.

Böllhoff has successively expanded its certifications and is therefore always up-to-date. The company regularly looks beyond the end of its nose and checks by means of benchmarking to see whether elements of a standard are also interesting for other areas.

SOLUTIONS AND RESULTS

At present, the above-mentioned certifications are to be implemented as a group certification for 20 international Böllhoff locations.

"We have worked very cooperatively with TÜV Rheinland's auditors from the very beginning. The planning, auditor deployment and audits are running very successfully. Since an audit always runs parallel to day-to-day business, planning plays a special role. TÜV Rheinland has always reliably, precisely and competently implemented the tasks."

Quality Manager from Böllhoff

BENEFITS FOR THE CUSTOMER

- Presentation of global competence and reliability for automotive, aerospace and rail customers
- Product innovations according to ecological guidelines

WERE YOU AWARE?

Create additional synergies by integrating your ISO 14001 environmental management into a holistic management system strategy. For example, combine your environmental management with a quality management system and occupational health and safety certifications or industry-specific standards.

About TÜV Rheinland

TÜV Rheinland is one of the world's leading independent testing service providers, with over 150 years of tradition. Our professionals test technical systems, products, and services, as well as accompany projects and design processes for businesses. Since 2006, TÜV Rheinland has been a member of the Global Compact of the United Nations for more sustainability and against corruption.

ALWAYS A GOOD SIGN. THE TÜV RHEINLAND TEST MARK.

This mark contains all the relevant customer information about products, services, and systems that are tested, certified, or monitored by TÜV Rheinland. It is available online anytime, anywhere, and can be verified at the touch of a button in a matter of seconds. This means maximum transparency at all times and top performance in terms of safety, quality, and reliability. Worldwide, systematic, and eye-catching – communicated through a one-of-a-kind, multifunctional mark. The TÜV Rheinland test mark.
