5 MINUTE GUIDE
SALEEM: Saudi Product Safety Program

Saudi Product Safety Program (SALEEM)
البرنامج السعودي لسلامة المنتجات

Beginning January 1, 2018, the Saudi Product Safety Program (SALEEM) will become the new conformity program in Saudi Arabia. Here's what you need to know about the new process in order to ensure compliance.

PRODUCT RISK CATEGORIES

Conformity Assessment by R-Cab, Product and Shipment CoCs and where required; SASO Labels

Shipment Declaration of Conformity through SABER

Conformity Assessment by R-Cab, Product and Shipment CoCs, SASO Quality Mark

MEDIUM RISK PRODUCTS

LOW RISK PRODUCTS

GSO REGULATED PRODUCTS

HIGH RISK PRODUCTS

Placed in Medium-High Risk:
Market Surveillance, Recall Mechanism, Penalty Mechanism

WHAT IS SABER?

SABER is a Web-based tool design by SASO for the implementation of SALEEM Program. Suppliers can use the SABER System to apply to R-CABs for Products & Shipments certification, and R-CABs can use SABER to issue CoCs to suppliers. SABER, which is expected to be available for use sometime in February 2018, will also act as a database for Product & Product Shipment Certificates of Conformity.

The SALEEM scope, includes industrial products, cosmetic products and some medical products. For more information, please contact your local TÜV Rheinland office.

REGISTRATION PROCESS

Step One
1. Supplier Applies to R-CAB
2. R-CAB performs CAPs to verify product meets requirements
3. R-CAB Issues the Product COC

Step Two
1. Supplier Applies to R-CAB
2. R-CAB verify and approve the product in the shipment.
3. Issue the Product Shipment CoC
