A certificate issued by an independent, competent body certifying that proven qualifications and skills match pre-defined educational goals.

Your professional qualifications confirmed by an independent source.

Personnel certifications point the way in an increasingly complex world.

In global business, personnel certifications make competences transparent and comparable. They enable consistent standards in rapid technical progress, and ensure constant quality. As an experienced, independent and recognized personnel certification body, PersCert TÜV meets internationally recognized standards for assessing technical and professional skills.

ACCREDITATIONS FROM PERSCERT TÜV

As an accredited personnel certification body, we meet nationally and internationally recognized requirements to assess and confirm skills.

For example:

FOR COMPANIES:

Services line to the skills of their implementation. High-quality products belong in skilled hands. PersCert TÜV assesses the qualifications of employees and stakeholders according to standardized testing procedures, nationally and internationally. In this way, companies can ensure comparable skills wherever they are.

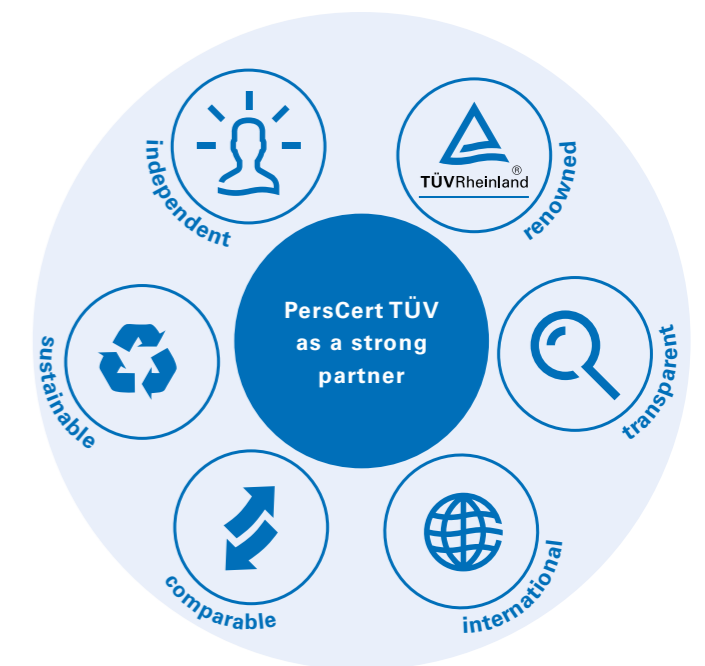

FOR TRAINING PROVIDERS:

Business-related technical training and further education at universities and with training providers gain in significance and value through an independent examination authority. Recognized proof of competence by PersCert TÜV increases the attractiveness of the service and offers the graduates better prospects in working life thanks to certificates recognized in business.

FOR ASSOCIATIONS AND AUTHORITIES:

In countries that have no regulated education and training by law, skill requirements are developed in cooperation with authorities. Suitable persons are certified for these specific employment profiles. An independent examination by PersCert TÜV increases the acceptance of participation among association members through special added value: credible proof of competence for increased competitiveness.

YOUR BENEFITS AT A GLANCE

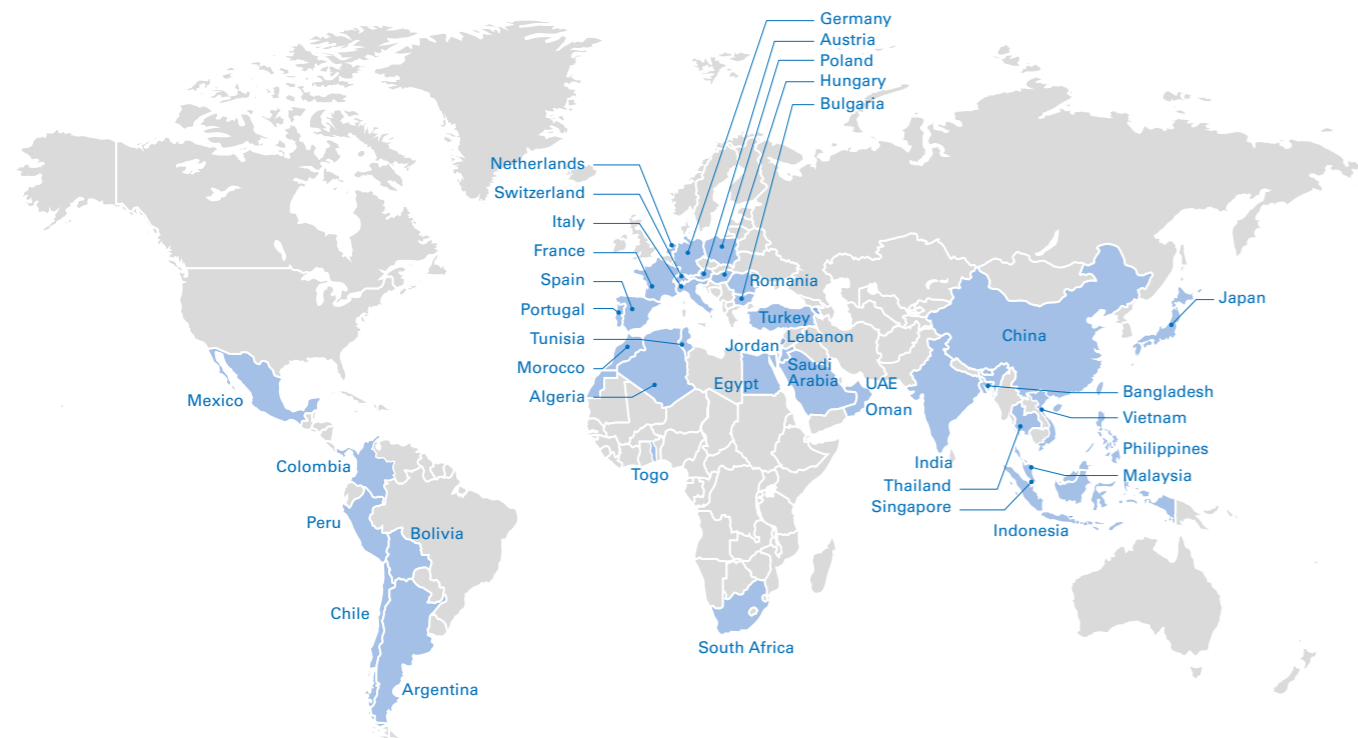

Proven standards available worldwide.

Global markets demand competences that can be compared.

Standardized personnel certifications enable the comparability of skills even beyond national borders. PersCert TÜV already has an extensive portfolio of fixed certifications oriented to the needs of the industry. After completing a course recognized by PersCert TÜV and passing an examination of the personnel certification body at TÜV Rheinland, successful candidates receive their certificate – for a limited or unlimited period of time.
