

Logistics and Supply Chain Management Training for Prince Pipes

Tailored in-house trainings were conducted to help staff at Prince Pipes and Fittings Ltd. improve logistic and supply chain management best practices and implement cost optimization techniques.

Basic Facts

Client	Prince Pipes and Fittings Ltd.
Timeframe	9 September 2017
Project Location	Vapi, Gujrat, India
Main services	Logistics and supply management training

INITIAL SITUATION, REQUIREMENTS

In keeping with their corporate vision to exceed customer expectations and maximize the bottom line for their stakeholders, Prince Pipes and Fittings Ltd. selected TÜV Rheinland to provide comprehensive logistics and supply chain management trainings. The company was looking to detailed training in best practise and cost optimization techniques effective for the Indian and global PVC/CPVC piping industry.

SOLUTIONS, RESULTS

Staff gathered in Vapi, Gujrat, India for a one-day seminar on 9 September 2017. Participants from logistics, procurement, purchasing and capital expenditures (CAPES) received project-based training from an experienced TÜV Rheinland instructor with expertise in India.

Customized training focuses in issues facing each department. Tailored topics included:

Logistics

- Inventory management

- Unplanned movement of goods among supplier and inventory sites
- Order management, sales and business plan
- Ability to transport non-standard products as well as meet PAN India customer requirements
- Coordination management

Procurement

- Managing optimum inventory level in conditions of fluctuating production
- Evaluating both local and import re-order levels
- Reducing and maintaining low inventory coat with commodity product
- Concept of ICD and container management system

Purchasing

- Inventory management best practices
- Negotiating cost

CAPEX

- International logistics process and documentation
- Export process and documentation
- Logistical benefits from import/export documents in accordance with governing rules

BENEFITS FOR THE CLIENT

Our training provides Prince Pipes effective management and cost-efficient business strategies to better serve customer as well as please stakeholders.
