Timeframe	<ul style="list-style-type: none">▪ Angola Project (June 2015 – ongoing)▪ Cameroon Project (June 2017 – ongoing)
Project Location	Equipment sourced from: China, USA, Spain, Austria, Italy, France, UK, Netherlands
Main Services	<ul style="list-style-type: none">▪ Vendor inspection▪ Project management▪ Technical consulting▪ Quality assurance▪ Solution management

INITIAL SITUATION, REQUIREMENTS

To better meet the stringent quality requirements of its clients, a distinguished Chinese EPC company needed an independent, reliable and recognized partner to provide vendor inspection and comprehensive supply chain management services for the construction and installation of two major infrastructure projects in Africa. They turned to TÜV Rheinland.

SOLUTIONS, RESULTS

More than 10 engineers and corresponding customer service personnel have been bridging local and international standards to provide state-of-the-art technical consulting and supply chain services such as **vendor inspection** to evaluate suppliers delivering materials and equipment to the combined-cycle power plant project in Angola and the drinking water treatment plant project in Cameroon.

Our technical experts have been on site working with local project teams to facilitate efficient negotiation and expeditious response. We have been providing wide-ranging technical consulting, tracing the entire process of both projects. We have worked on behalf of our client to solve problems as they occur. We have conducted vendor inspections to ensure the technical competence, production capacity, ability to deliver and quality assurance of suppliers from around the world involved in these critical infrastructure projects.

We take pride in our efforts to positively impact the African economy and the lives of its citizens. We have received praise from our client who has expressed gratitude for our contribution with thanks published in the company's internal media.

BENEFITS FOR THE CLIENT

Our comprehensive quality management services covered all procurement processes including:

- Identification of technical codes and standards
- Review of inspection and testing plans
- Improvement of manufacturer quality control and ability to deliver
- Worldwide inspections of suppliers

ABOUT TÜV RHEINLAND

Founded 145 years ago, TÜV Rheinland is a global leader in independent inspection services, ensuring quality and safety for people, the environment and technology in nearly all aspects of life.

We inspect technical equipment, products and services, oversee projects and help to shape processes for companies around the world. Since 2006, we have been a member of the United Nations Global Compact to promote sustainability and combat corruption.
