

Expediting Services

Ensure timely delivery for every project

As manufacturing and supply chain processes become more complex and competitive, procurement, management and coordination of international projects prove to be increasingly challenging. Our expediting service adds value to your projects through the inspection of manufacturers and assessment of manufacturing production plans and capacity.

Our comprehensive expediting services help you to avoid delays and ensure compliance with contractual conditions and specifications as well as applicable international codes and standards.

Our experts actively keep an eye on the deadlines and manufacturing schedule to help you reach defined project milestones and ensure that equipment, materials and components arrive at the right place, at the right time.

We inspect manufacturers and assess manufacturing production plans and capacity. Our full range of expediting services help you ensure that final delivery is made on time.

PROJECT SUPPORT AND MONITORING

Comprehensive support along the entire supply chain, including follow-up on major project milestones and deadlines

QUALITY AUDITS

Evaluation of supplier production potential and quality before an order is placed

PRODUCTION CONTROL

Monitoring production progress, manufacturing schedule, supplier workload, and identifying areas of concern

PROGRESS REPORTING

Verification of contractual conditions and actual project status

FIELD EXPEDITING

On-site third-party inspection, project support and expeditor review of actual order status

DESK EXPEDITING

Offsite monitoring of order progress at specific milestone points

COMPLIANCE

- Contractual conditions
- Specifications
- Applicable standards

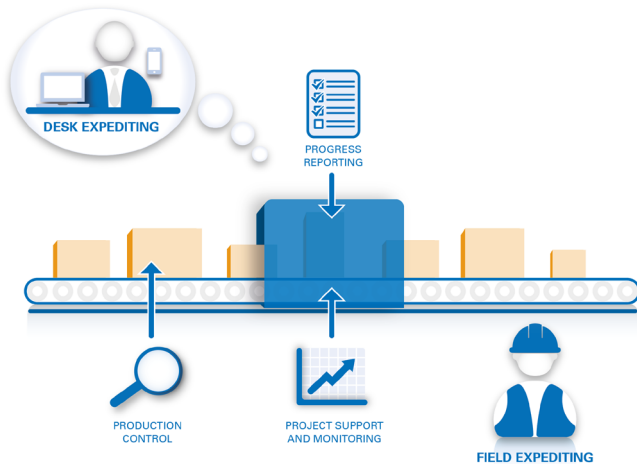

SCHEDULES

- Production
- Delivery
- Payment

PREVENTION

- Bottlenecks
- Capital stock
- Delays and penalties

EXPEDITING SERVICES FOR VARIOUS INDUSTRIES

With our ongoing global exchange of experience and constant cooperations with various technical and scientific institutions, experts possess high technical knowledge and extensive experience in expediting services. Our third party inspection services can support project planning and management for the client, hence ensuring final delivery on time.

OUR EXPERIENCE - YOUR BENEFIT

Decades of experience have made TÜV Rheinland a recognized provider of industrial inspection services, including expediting services. Manufacturers and suppliers benefit from our comprehensive expediting services throughout the production phase, encompassing seamless coordination of expediting with all suppliers, timely identification of threats and bottlenecks, and critical prevention of late deliveries and corresponding penalties.

BENEFITS AT A GLANCE

TÜV Rheinland's comprehensive expediting services offer you:

- Strong support in fulfilling your commitment to client needs and construction schedules
- Support in achieving settled milestone payments
- Prompt identification of threats and bottlenecks thanks to expediting visits
- Recognition and elimination of critical deviations in early phase
- Avoidance of late deliveries and hence penalties
- Prevention of long capital stock
- Assurance of company reliability and integrity

VALUE ADDED SERVICES ALONG THE SUPPLY CHAIN

No matter in which sector you operate – our inspection services support clients during procurement, production, shipment and installation. We help you to select qualified suppliers, assure the quality of materials and components and avoid delivery delays. Our experts audit, inspect or verify according to your inspection test plans, your specifications or applicable international codes and standards. We also assure safe and correct loading, shipment and discharge at any location to ensure that you receive proper and undamaged goods and materials. Finally, we supervise and monitor all construction site activities.

ABOUT TÜV RHEINLAND

TÜV Rheinland is a global leader in independent inspection services, founded in 1872. Our experts inspect technical equipment, products and services, oversee projects and help to shape processes for companies.

Since 2006, TÜV Rheinland has been a member of the United Nations Global Compact to promote sustainability and combat corruption.
