

## Detergents / cleaning agents / cleaning products and biocides

In a world where cleanliness and safety are of utmost importance, we understand the essential demands placed on detergents, cleaning agents, cleaning products and biocides. With us, you will find a reliable partner who helps ensure that your products meet the strictest safety standards. Show the market that preventive consumer protection is important to you.

With our many years of experience, we will make you confident that your products fulfil legal requirements. We will test your products in accordance with the following laws and directives

- Food and Feed Code of Law, LFGB
- German Washing and Cleaning Agent Act, WRMG
- Detergents Regulation (EC) No. 648/2004
- GHS Regulation (EC) No. 1272/2008
- (German) Chemicals Prohibition Ordinance, ChemVerbotsV
- Biocides Regulation (EC) No. 528/2012
- REACH Regulation (EC) No. 1907/2006

In our accredited laboratories, our experts perform the following tests reliable and flexible. Chemical analyses (including testing of selected ingredients)

- Declaration labeling tests
- Document checks
- Preparation of safety data sheets
- Certification of detergents/cleaning agents
- Certification of cleaning agents for the food industry
- Testing of hydrophobic surfaces
- Generation of UFI code/PCN registration
- Recipe registration Switzerland incl. account creation

#### OUR COMMON PATH

1. Contacting you with concrete questions about your products
2. Preparing a quotation after receiving all relevant documents such as e. g. labels and material safety data sheets
3. Sending the quotation
4. Testing your products
5. Preparing the report and sending the test report

#### FOR YOU – WE CERTIFY.

If a test is successful, a certificate and the right to use a test mark can be awarded. Show customers and consumers that they can buy your products with a clear conscience and without hesitation.

You can see it at a glance. Our nationally and internationally recognised test mark says more than 1000 words. At any time with just one smartphone scan you can access essential certification program characteristics via QR code.

Visit the TÜV Rheinland certificate database at [www.certipedia.com](http://www.certipedia.com) and enter the ID shown on the test mark. There you will find the appropriate proof of quality.

#### WE ENSURE YOUR SAFETY – GLOBALLY.

Our TÜV Rheinland test mark stands for consistently high quality. To ensure this, we carry out both initial inspections and regular checks of your production facilities.

Do you want your products to be successful internationally? We support you in bringing them to almost every country. Think of us as your companion on the road to global market success.

## Why TÜV Rheinland?

#### GLOBAL BRAND

With over 150 years of experience in testing, inspection, and certification, we are a longstanding respected and recognized company serving major brands around the world.

#### ONE TEAM

Our highly experienced experts have practical knowledge of the entire product development lifecycle in addition to the tests, and certification requirements.

#### EFFICIENT AND RELIABLE

##### SOLUTIONS

Our team of qualified experts located worldwide provides clarity on regulations specific to your product and simplify the testing process for multi-market access needs.

#### PARTNER FOR QUALITY

Our worldwide network of accredited laboratories offers our customers access to an extensive range of services with additional support in key manufacturing and destination markets.

You can find out about our services for detergents, cleaning agents, cleaning products and biocides on our website at any time.

Of course, our experts are also available to answer your questions and concerns in person.
