

NEBOSH International Certificate in Occupational Health & Safety

Driving globally recognized occupational health and safety practices for the professional sector

The NEBOSH Certificate in Occupational Health and Safety will develop your understanding of general workplace issues and equip you with the skills that can be applied in different sectors. After completing the course you will be able to drive safety practices to create a safe and healthy workplace.

BENEFITS

Completing the NEBOSH Certificate course enables you to implement occupational health and safety practices effectively. You will learn the skills and protocols involved in the domain to:

- Advocate and implement effective health & safety improvements
- Carry out general risk assessments
- Achieve Technical Membership of TechIOSH

TARGET GROUP

The National Examination Board in Occupational Safety and Health (NEBOSH) International General Certificate is aimed at anyone responsible for health and safety, including:

- Occupational health and safety officers
- General managers and supervisors
- Public service workers
- HR managers
- Operational managers
- Security workers
- Directors/CEO's

The course is largely recognized as the perfect way to kickstart a career in health and safety. But it is also great if you just want to improve your knowledge to be able to do your job better.

PREREQUISITES

There are no specific academic qualifications, skills or

experience required to take up the NEBOSH Certification program. However, NEBOSH does recommend a minimum standard of English for all learners, equivalent to level 6 on the International English Language Testing System (IELTS) tests.
