NEBOSH International Certificate in Oil & Gas, Health and Safety

Be at the forefront of occupational and environmental safety and health protocols in the oil and gas industry

The NEBOSH Oil and Gas Certificate is a foundation qualification designed to develop occupational health and safety knowledge that is specific to the oil and gas domain. The course is based on international best practices with a particular focus on Process Safety Management (PSM).

BENEFITS

The NEBOSH Oil and Gas Certificate equips you with the skills required to execute occupational health and safety protocols for the oil and gas sector.

- Manage appropriate emergency response measures
- Recognize common workplace hazards and prevent them from recurring
- Implement control measures applicable to Process Safety Management (PSM)

TARGET GROUP

The NEBOSH Oil and Gas International General Certificate is aimed at anyone responsible for health and safety in the oil and gas industry, including:

- Health and safety officers
- General managers
- Safety supervisors
- Environmental health & safety engineers

PREREQUISITES

There are no mandatory entry requirements. However, having awareness of general health and safety issues is essential. It is recommended you complete the NEBOSH

General Certificate program before taking this course and have a suitable standard of English language (score of 6.0 or higher in IELTS tests).

COURSE INFORMATION

Language	English
Format	eLearning
Duration	54 Hours
